CAREER OBJECTIVE

B.Tech AI student (2027 batch) passionate about Artificial Intelligence, Machine Learning, and backend systems. Seeking a Junior AI Engineer role at Amplework Software to apply Python, API integration, and AI concepts while contributing to real-world intelligent solutions and continuously learning modern AI tools like LLMs.

EDUCATION

B.Tech in Computer Science (AI) – Arya College of Engineering 2023 – 2027

Senior Secondary (CBSE) – MLS DAV Public School 2023

TECHNICAL SKILLS

- **Programming:** Python, C, C++, SQL
- **AI/ML:** Regression, Classification, Basic LLM Concepts
- **Data Handling:** Pandas, NumPy, Text Processing
- **APIs & Backend:** JSON, REST APIs (Basic Understanding)
- **Tools:** Git, VS Code
- **Database:** SQL (Basic), NoSQL (Familiar)

WORK EXPERIENCE

Data Science Intern – Analytics Vidhya Mar 2026 – Present

- **Situation:** Worked on real-world datasets for predictive analysis.
- **Task:** Build ML models and extract insights from data.
- **Action:** Performed preprocessing, feature engineering, and implemented ML algorithms using Python.
- **Result:** Improved understanding of data pipelines, model accuracy, and practical AI problem solving.

Flutter Developer Intern – MantiQ Infotech LLP Jun 2025 – Jul 2025

- **Situation:** Required to develop cross-platform mobile apps.
- **Task:** Design UI and implement application features.
- **Action:** Built responsive UI using Flutter and integrated app functionalities.
- **Result:** Delivered functional mobile apps with improved user experience.

Frontend Developer Intern – MantiQ Infotech LLP Jul 2025

- **Situation:** Company needed optimized web interfaces.
- **Task:** Improve UI and performance.
- **Action:** Developed responsive designs using HTML, CSS, JavaScript.
- **Result:** Enhanced website responsiveness and usability.

PROJECTS

Heart Disease Prediction System

- **Situation:** Need for early disease prediction using medical data.
- **Task:** Build an ML model for prediction.
- **Action:** Used Python, Pandas, and ML algorithms; deployed using Streamlit.
- **Result:** Achieved accurate predictions and built end-to-end ML pipeline.

Personal Portfolio Website

- **Situation:** Needed a platform to showcase skills and projects.

- **Task:** Develop a responsive portfolio.
 - **Action:** Built using HTML, CSS, JavaScript.
 - **Result:** Created professional online presence.
-

ACHIEVEMENTS & CERTIFICATIONS

- Completed Data Science Internship (Analytics Vidhya)
 - Flutter Development Internship – MantiQ Infotech
 - Frontend Development Internship – MantiQ Infotech
 - NPTEL Certification – Soft Skills
-

EXTRA-CURRICULAR / INTERESTS

- AI/ML Projects & Problem Solving
- Exploring LLMs, Chatbots, and Automation Tools
